

Thomas Augee

Oregon State University Don and Cathy Schut Civil Engineering/Environmental Engineering Scholarship

I am a student at Oregon State University heading into my final year of school. I feel honored to have received the Oregon APWA Environmental Engineering Schut Scholarship.

I have had multiple internships including with a general contractor (P&C Construction) and a civil design firm (Burgess & Niple). I am also the OSU ASCE Student Chapter President for this upcoming year, have been an active member in the OSU Concrete Canoe Club for the last two years, and was the treasurer for the OSU AGC Student Chapter the last two years.

In my free time I enjoy running, going to the gym, and spending time with my friends.
